1.	Hal Varian, the chief economist at Google, declared that "the sexy job in the next ten years will be".	1/1 point
	O Computer Scientists.	
	O Physicists.	
	○ Engineers.	
	Statisticians.	
	✓ Correct Correct.	
2.	The author defines a data scientist as someone who uses complicated machine learning to build predictive	1/1 point
	models, publishes their research results in online blogs, and works from home.	
	False.	
	○ True.	
	✓ Correct	
	Correct. This is close to how to Dr. Vincent Granville defines a data scientist but not the author.	
3.	According to the reading, the author defines data science as the art of uncovering the hidden secrets in data.	1/1 point
	○ True.	
	False.	
4.	According to the reading, what is admirable about Dr. Patil's definition of a data scientist ?	1/1 point
4.	According to the reading, what is admirable about Dr. Patil's definition of a data scientist ? (a) His definition is inclusive of individuals from various academic backgrounds and training.	1/1 point
4.		1/1 point
4.	His definition is inclusive of individuals from various academic backgrounds and training.	1/1 point
4.	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. 	1/1 point
4.	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. 	1/1 point
4.	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. 	1/1 point
4.	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. 	1/1 point
4.	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. 	1/1 point
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists?	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists? Really curious engineers and statisticians. 	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists?	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists? Really curious engineers and statisticians. Really curious people who ask good questions. 	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists? Really curious engineers and statisticians. Really curious people who ask good questions. Thinkers who are really curious and hold a Ph.D. 	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists? Really curious engineers and statisticians. Really curious people who ask good questions. Thinkers who are really curious and hold a Ph.D. Curious individuals who ask good questions and are O.K. dealing with unstructured situations. 	
	 His definition is inclusive of individuals from various academic backgrounds and training. His definition is about weaving strong narratives into analytics. His definition limits data science to activities involving machine learning. His definition excludes statistics. Correct Correct Correct. According to the reading, what characteristics are said to be exhibited by the best data scientists? Really curious engineers and statisticians. Really curious people who ask good questions. Thinkers who are really curious and hold a Ph.D. Curious individuals who ask good questions and are O.K. dealing with unstructured situations.
